

# Waze Project Proposal

## Overview:

Waze leadership has asked the data team to build a machine learning model to predict user churn. The model is based on the data collected from users of the Waze app.

| Milestone | Tasks                                                                        | Deliverables/Reports                                                          | Relevant Stakeholder (Optional Activity)     |
|-----------|------------------------------------------------------------------------------|-------------------------------------------------------------------------------|----------------------------------------------|
